[Tooltips](#)

GENIUS proposes very simply the possibility to add tooltips using the `setToolTipText` method ...

```
GEntryInt valI = new GEntryInt("Integer :", 123);
```

```
valI.setToolTipText("This is an integer");
```

Note that it is also possible to manage tooltips for widget list as `GComboBox`. Here it is very simple too as we can see it on the example below:

```
String[] list = new String[3];  
list[0] = "Choice 0";  
list[1] = "Choice 1";  
list[2] = "Choice 2";
```

```
String[] infos = new String[3];  
infos[0] = "Information on choice 0";  
infos[1] = "Information on choice 1";  
infos[2] = "Information on choice 2";
```

```
GComboBoxWithLabel test = new GComboBoxWithLabel("test:", 0, list);  
test.setTooltipsList(infos);
```
